

Guidelines for operating during Covid-19
Camrose Saturday Farmers' Market

Physical distancing

1. Customers must maintain a 2-metre distance from one another in line-ups that may form at market entrances, vendors' stalls, washrooms and other places where line-ups may occur.
2. People to maintain a 2 metre distance from one another throughout the market to ensure that there is sufficient space available for customers, market staff and vendors to maintain that distance.
3. No socializing vendors booths or in the market area. Please make all interactions brief and business-like.

Vendor Sanitary Practices

1. No open food or sampling of any kind remains in effect to reduce opportunities for contamination.
2. All vendors are asked to have hand sanitizer available on their table at all times.
3. Vendors are encouraged to wear disposable gloves. Please change and dispose of gloves properly or sanitize after each transaction. If vendors are not from the same family unit they should wear a mask.
4. Vendors should consider pulling back products displayed; no handling of products by customers; ask customers to point at what they want.
5. No cloth tablecloths in order to sanitize surfaces on a frequent basis. Suggestion: use a clear sheet of plastic over the top of the table cloth which would allow you to wipe down the plastic table cover with sanitizer.
6. Place a table between your product table and place products on there for

customers to bag themselves. NO CUSTOMER BAGS allowed on top of product tables. Sanitize after each customer.

VENDOR Responsibility

1. Please bring sanitization supplies. Be diligent in sanitizing your tables, hands, payment terminals, etc.
2. Disposable gloves (optional)
3. Mask (optional)
4. Garbage container to dispose of all your garbage.

SAFE PRACTICES for ALL (from AHS)

1. Be patient with each other, no line cutting, no lingering and limit socializing.
2. Wash Hands OFTEN - minimum of 20 seconds
3. Sanitize hands often.
4. Sneeze or cough in your sleeve, elbow, or tissue, away from others and products. Throw tissues away immediately and sanitize hands.
5. DO NOT TOUCH FACE, especially around mouth, nose, and eyes.
6. Stay home if you feel ill - self isolate for 14 days.
7. Practice Physical Distancing-2 metres.
8. Avoid common greetings, such as handshakes.
